

Outdoor Jumper Cable and FTTH Jumper Cable

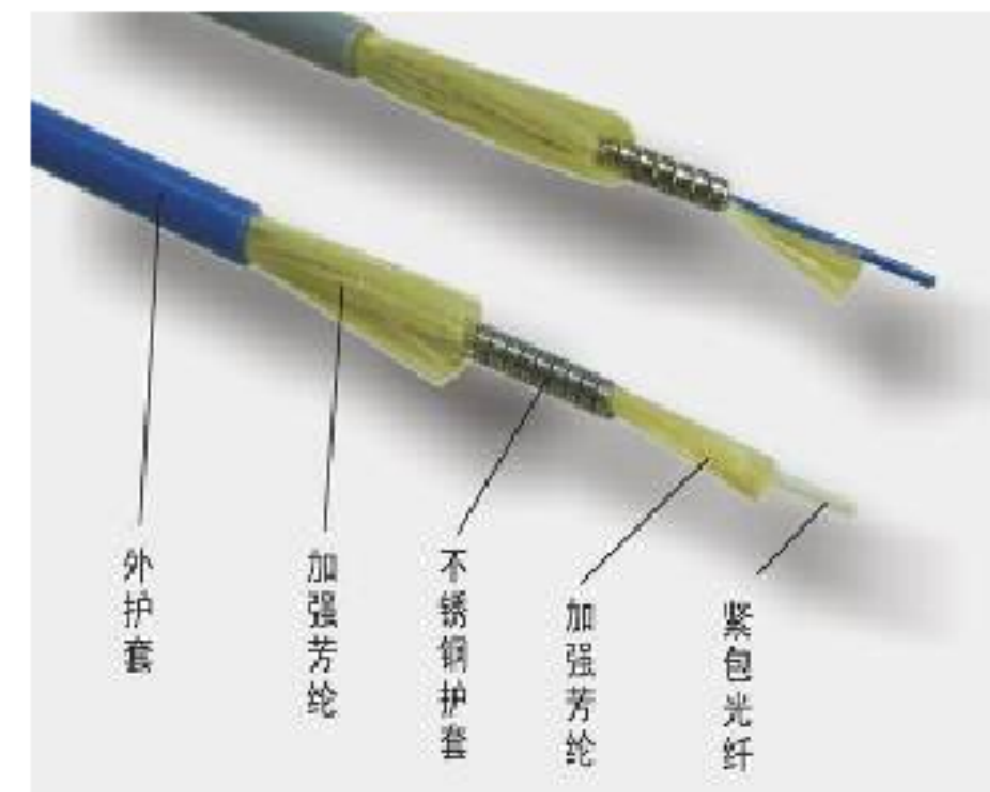

Fiber  
Non Metallic Strengthen  
Inox Jacket  
Non Metallic Strengthen  
PE Out Jacket

3mm

**Advantage:**

- Stainless steel protective armor, the protection can be strong and supple fiber;
- lateral resistance, bending resistance, resistance to repeated bending, rodent;
- Can be as easy as the wires used to make wiring easier。

## FTTH Jumper Cable/FTTH Patch Cord

- FTTH Jumper Cable For FTTH Project.
- Using the Optical Drop Cable and SC/FC/LC connectors,
- We make the FTTH Jumper in the factory to help you to reduce costs

**Optical Drop Cable To produce the FTTH Jumper Cable**

### Installation Guide:

**1. When install the FTTH Jumper Cable not accrossing the Pipeline, We could use the FTTH Jumper Cable with 2 sides of Connectors**

**1. When install the FTTH Jumper Cable accrossing the Pipeline, We could use the FTTH Jumper Cable with 1 side of Connectors**

### Fiber Optic Fast Connector

#### ■ Usage

- Improve the efficiency of the user to be installed  
Install Just use passive construction tools  
Saving time, dramatically reducing the cost of construction  
Reduce or eliminate the volume of connections connected protective case protective case

#### ■ Types

- Quick cable connector into the side  
For different structures with fiber-optic cable plugs into the side  
For different structures with fiber-optic cable into the socket end  
Mechanical connectors  
Fiber connection 250um/900um
